

# Utah 2025 Harvest Report

Official Utah DWR harvest data | U.O.G.A. Hunt Builder visitor reference

CURRENT DWR DATA - 2026-09-02

## Utah 2025 Harvest Report

CURRENT DWR DATA - 2026-09-02

This report assembles 1,148 Utah DWR hunt-code rows across 9 species groups. The retained rows sum to 145,226 hunters afield and 49,540 harvested animals. DWR statewide estimates may differ from sums of hunt-code rows because DWR projects statewide and hunt-level estimates separately.

Harvested age is available for 220 rows; a DWR-reported three-year harvested-age value is available for 222 rows. A matching DWR management objective is available for 651 rows, and the evidence-gated U.O.G.A. Hunt Unit Quality score is publishable for 390 rows. A dash means the matched record does not support that measure; no value or score is inferred.

Permit counts in this historical harvest report are source-year harvest-report fields only. They are not the current quota authority and are not used directly as draw probability.

Compare permit utilization, harvest success, days hunted, satisfaction, harvested age, the applicable DWR objective, and the evidence-gated U.O.G.A. unit-quality profile. Summary medians are hunt-level medians, not statewide weighted estimates.

### Species summary

| Species                      | Rows | Hunters | Harvest | Median success | Median days | Median satisfaction | DWR objective rows | Quality rows |
|------------------------------|------|---------|---------|----------------|-------------|---------------------|--------------------|--------------|
| Elk                          | 471  | 65,208  | 16,381  | 60.0%          | 4.8         | 3.8                 | 270                | 180          |
| Deer                         | 421  | 74,532  | 29,396  | 60.0%          | 4.4         | 3.7                 | 214                | 150          |
| Pronghorn                    | 124  | 3,034   | 2,221   | 86.0%          | 2.3         | 4.1                 | 75                 | 46           |
| Moose                        | 43   | 202     | 188     | 100.0%         | 4.0         | 4.8                 | 12                 | 3            |
| Bison                        | 18   | 170     | 141     | 96.7%          | 3.6         | 4.5                 | 14                 | 5            |
| Mountain Goat                | 18   | 109     | 98      | 100.0%         | 4.0         | 4.5                 | 17                 | 4            |
| Desert Bighorn Sheep         | 25   | 99      | 87      | 100.0%         | 8.0         | 4.6                 | 22                 | 2            |
| Rocky Mountain Bighorn Sheep | 21   | 64      | 62      | 100.0%         | 6.0         | 4.8                 | 20                 | 0            |
| Wild Turkey                  | 7    | 1,808   | 966     | 52.9%          | -           | -                   | 7                  | 0            |

| <b>Wild Turkey - 7 hunt-code rows</b>                   | <b>83</b> |
| Bearded - 7 rows                                        | 83        |

# Utah DWR Management Objective Framework

The row-level objective column shows the applicable DWR target, unit of measure, current comparison value, and status when those values are available. Statewide qualitative frameworks are stated once below and referenced compactly in the row table.

| Framework                | Utah DWR objective                                                                                                                         | Unit of measure                                  |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------|
| Turkey statewide program | Enhance 100,000 habitat acres statewide by 2029; increase turkey hunters 10% by 2029; increase wild turkey event participation 10% by 2029 | statewide habitat acres and participation change |

U.O.G.A. Hunt Unit Quality is a display-only 0-100 profile combining the matching biological measure, three-year harvest success, three-year satisfaction, and inverse effort. It is not a DWR score, not comparable across unlike species/hunt classes, and never changes permits or draw odds.

## HUNTING UNIT INDEX

### UNIT NUMBER / NAME

Units are alphabetical. Select a unit or hunt code to jump to that exact result row, or select Species / Sex to jump to the full section.

2025 status: current DWR dashboard reconciliation through 2026-09-02, plus the preliminary big-game package and the turkey report. The 2025 annual elk, pronghorn, and moose ages and their DWR-reported 2023-2025 averages are included.

| Hunting unit / hunt name                       | Hunt codes                                     | Species                      | Sex             | Report section                           |

# Utah 2025 Harvest Report

Official Utah DWR harvest data | U.O.G.A. Hunt Builder visitor reference

CURRENT DWR DATA - 2026-09-02

## Elk - 471 hunt-code rows

## Female Only - 207 rows

[Back to T.O.C.](#) | [Hunting Unit Index](#)

Annual harvest fields are year-specific. DWR objective/current context and the evidence-gated U.O.G.A. quality profile are current management overlays and remain blank where exact compatible evidence is unavailable.
