

Utah 2023 Harvest Report

Official Utah DWR harvest data | U.O.G.A. Hunt Builder visitor reference

VERIFIED DWR REPORT PACKAGE

Utah 2023 Harvest Report

VERIFIED DWR REPORT PACKAGE

This report assembles 1,179 official DWR hunt-code rows across 21 species groups. The retained rows sum to 111,371 hunters afield and 26,577 harvested animals. DWR statewide estimates may differ from sums of hunt-code rows because DWR projects statewide and hunt-level estimates separately.

Harvested age is available for 180 rows; a DWR-reported three-year harvested-age value is available for 151 rows. Annual age and DWR-reported three-year age are separate fields. A blank means the official evidence does not provide that measure for the matched hunt code; no value is inferred.

Permit counts in this historical harvest report are source-year harvest-report fields only. They are not the current quota authority and are not used directly as draw probability.

Species summary

Species	Rows	Permits	Hunters	Harvest	Median success	Age rows	3-year age rows
Elk	211	4,481	4,426	2,722	71.4%	70	70
